

Strategy: Parent Engagement and Support

Annual Grant Funding: \$114,000

The Oakland WIC Father Cafes Program will serve ~300 low-income fathers of children, ages 0-5, who are enrolled in the Alameda County Women, Infants, and Children Supplemental Nutrition program (WIC). Participants in bi-weekly Father Cafes--facilitated peer-to-peer support groups at WIC sites at Telegraph and Eastmont Mall--will develop parenting skills and knowledge to support their child's development and the co-parenting relationship with their partners. The program promotes fatherhood responsibility, resulting in healthy development for young children and improved kindergarten readiness.

LifeLong Medical Care proposes to continue the Children’s Services Program at Project Pride, located at 2545 San Pablo Ave., its residential treatment program for women and their children aged 5 and under. The program will serve a minimum of 20 children annually who are among the most at-risk in Oakland. It provides developmental assessments, parenting education three times weekly, parent/child observation sessions 1-2 times weekly, and case management. The goal is to reduce the children’s risk for adverse childhood events while strengthening their capacity for healthy development.

This 2x/wk program is to serve up to 135 Oakland children (including parents/caregivers) ages 0-5, at 4 Recreation centers (Carmen Flores, Willie Keyes, Mosswood and Rainbow). We plan on hosting virtual zoom circle time September 2020 through year end. We hope to resume in person sessions in January 2021, but are flexible based upon county guidelines. We seek to serve families that do not meet low-income requirements of Head Start and are unable to afford preschool. Each playgroup will provide a circle time, arts and crafts project; also monthly enrichment activities and quarterly field trips.

The Summer Pre-K (SPK) program is a 4-week school readiness program serving 18 children in 6 classrooms in priority neighborhoods. SPK is designed for incoming Kindergarten/TK students with minimal to no preschool experience, with priority enrollment for refugee and newcomer students. SPK provides children with an opportunity to prepare for kindergarten through social and emotional learning, as well as pre-academics; skills necessary for school success. SPK has a parent engagement component to increase family supports and access to services related to kindergarten readiness and child wellness.

Oakland’s LGBTQ families face multiple obstacles to the healthy development of their children: disproportionate financial barriers, lingering anti-gay stigma, and insufficient access to relevant information and resources, to name just a few. Building Strong Children in LGBTQ Families supports the healthy development of young children growing up in these families by providing parents and caregivers the supportive community, early childhood development knowledge, positive parenting skills training, access to resources, and leadership development they need to build and sustain resilience.
